

SAT® Percentile Ranks for 2012 College-Bound Seniors

Critical Reading, Mathematics and Writing Percentile Ranks by Gender and Ethnic Groups

This table allows you to compare a student's SAT® scores with the performance of other 2012 college-bound seniors who took the test some time in high school. Percentile ranks show the percentage of each group who scored lower on the three sections together. They are grouped by gender and self-reported ethnic groups.

Please keep in mind that relationships between test scores and other factors such as educational background, gender, racial/ethnic background, parental education and household income are complex and interdependent. These factors do not directly affect test performance; rather, they are associated with educational experiences both on tests and in schoolwork.

Score	Males			Females			African American or Black			American Indian or Alaskan Native			Score
