Founded in 1900, the College Board is a not-for-profit educational association that supports academic preparation and transition to higher education for students around the world through the ongoing collaboration of its member schools, colleges, universities, educational systems, and organizations. In all of its activities, the Board promotes equity through universal access to high standards of teaching and learning and sufficient financial resources so that every student has the opportunity to succeed in college and work. The College Board champions — by means of superior research; curricular development; assessment; guidance, placement, and admission information; professional development; forums; policy analysis; and public outreach — EDUCATIONAL EXCELLENCE FOR ALL STUDENTS.

FOREWORD

The Advanced Placement (AP®) Program, a cooperative educational endeavor, is based on the premise that college-level material can be taught successfully to able and well-prepared secondary school students. Participating colleges, in turn, grant credit and/or appropriate placement to students who have done well on the AP Examinations. Approximately 55 percent of the nation's 21,500 high schools offer some college-level AP course work, and more than 550,000 students participated in the AP Program this year. Use by both schools and students has grown steadily in recent years.

As an intermediary agent of the participating institutions, the AP Program:

- provides conferences, consultants, and curricular materials to help interested schools establish college-level courses;
- furnishes and grades examinations based on the goals set forth in the AP Course Descriptions;
- sends examination grades to the students, their schools, and their designated colleges;
- prepares related publications;
- supports appropriate research; and
- provides reports to students, schools, school districts, colleges, systems and consortia of colleges and universities, and state agencies.

In response to increased interest in the Advanced Placement Program, the College Board produces, as part of its reporting process, the following series of tables reflecting student participation in the 1997 AP Examinations. A more detailed understanding of AP trends and related information can be found in the companion publication, the *1997 AP Yearbook*.

The Advanced Placement Program is sponsored by the College Board with the advice of national groups of educators, its Council on College-Level Services, and its academic advisory committees in the disciplines concerned.

The College Board, founded in 1900 with headquarters in New York City, is a nonprofit membership organization of 3,000 colleges and universities, schools, school systems, and education associations. Its regional offices are identified on the back cover of this publication.

In the operation of most of its testing programs and related services, the College Board contracts for technical and operational services with Educational Testing Service (ETS), an independent, nonprofit agency with headquarters in Princeton, New Jersey.

1997 AP STATE SUMMARY REPORT TABLES

These Advanced Placement State Reports are produced in response to the increasing interest by educational leaders in obtaining annual profiles of AP Program participation in their states. The content and format of these comprehensive reports were developed in collaboration with a number of chief state school officers and their staffs.

The reports provide an opportunity for educators and educational policymakers to better understand the academic preparation of the growing numbers of college-bound students who take one or more AP Exams in a given year. In addition, the reports provide a backdrop against which school and college administrators and faculty can examine Advanced Placement Program participation by their students. These reports can also be used for academic planning by schools and colleges.

The organization of the following state tables is identical to the national tables, which begin on page 15. In addition to the headings found in the national report, however, the state report contains two additional tables: In-State and Out-of-State Colleges Receiving the Greatest Number of AP Grades for Students from the State.

The state tables are followed by a worksheet with examples of how to analyze the data in the tables. The first example for each table is identical to the examples for the national tables (see page 15); simply supply the corresponding data for the state. A second example is provided for each table on the state worksheet to further illustrate how the data can be used as the basis for both internal and external reports.

In the following tables, for each racial/ethnic group (self-reported by students), AP grade distributions, totals, and mean (average) grades for each AP Examination are given. The last column in each table summarizes the performance of AP candidates at each grade level. The AP grading scale should be interpreted as follows:

5 = Extremely well qualified
4 = Well qualified
3 = Qualified
2 = Possibly qualified
1 = No recommendation

*This number is slightly inflated because some candidates take exams in more than one year.

1997 AP STATE SUMMARY WORKSHEET

Reference Page

All Candidates **3**

- The total line indicates that there were _____ candidates taking _____ Advanced Placement Examinations.
- The total column indicates that there were _____ AP Examinations taken by secondary school students in this state.

Males **4**

- _____ or _____ % of all AP United States History Examinations were taken by males.
- _____ or _____ % of all AP Examinations were taken by males.

Females **5**

- _____ or _____ % of the AP Calculus AB Examinations were taken by females.
- _____ or _____ % of secondary school females taking an AP Examination were in 9th or 10th grade.

12th-Grade Candidates **6**

- _____ or _____ % of all 12th-grade candidates took the AP Examination in _____ .
- In the sciences, the AP Examination most frequently taken by secondary school seniors was _____ .

11th-Grade Candidates **7**

- _____ or _____ % of all candidates taking AP Examinations were secondary school juniors.
- _____ or _____ % of 11th-grade students who took the AP English Language and Composition Examination earned grades of 3-5.

Reports Designated for In-State Colleges **8**

- _____ or _____ % of all students from the state who identified themselves as Black/African Americans sent their AP Grade Reports to in-state colleges and universities.
- The _____ AP Biology Examination grades of 3-5 represent ____ % of the total AP Biology grades designated by students for in-state colleges and universities.

Reports Designated for Out-of-State Colleges **9**

- _____ or _____ % of students with AP Examination grades of 3-5 designated an out-of-state college to receive their AP Grade Reports.
- _____ or _____ % of students who identified themselves as Asian Americans designated out-of-state colleges to receive their AP Examination grades.

Participation by Exam: Public School Candidates **10**

- _____ or _____ % of the public school candidates taking the _____ AP Examination earned grades of 3-5.
- _____ or _____ % of the AP Computer Science A Examinations were taken by public school students.

1997 AP NATIONAL SUMMARY REPORT TABLES

In each table, for each racial/ethnic group (self-reported by students), AP grade distributions, totals, and mean (average) grades for each AP Exam are given. The AP grading scale should be interpreted as follows: 5 = extremely well qualified, 4 = well qualified, 3 = qualified, 2 = possibly qualified, 1 = no recommendation. The last column in each table summarizes the performance of AP candidates at each grade level. The eight examples at right, taken from the national summary tables, illustrate ways in which the data can be used.

Reference Page

All Candidates — **16**
The National Total line indicates 566,720 candidates took 899,463 Advanced Placement Examinations in 1997. These candidates represented 11,424 U.S. secondary schools. Total program participation also included 22,138 examinations taken by 14,834 candidates from 598 schools abroad.

Males — **17**
69,225 or 47% of all AP United States History Examinations were taken by males.

Females — **18**
51,182 or 47% of all AP Calculus AB Examinations were taken by females.

12th-Grade Candidates
145,430 or 48% of all 12th-grade candidates took the AP English Literature and Composition Examination. — **19**

11th-Grade Candidates
216,250 or 38% of all candidates taking AP Examinations were secondary school juniors. — **20**

Reports Designated for In-State Colleges
8,055 or 63% of students who identified themselves as Black/African Americans designated in-state colleges to receive their AP Grade Reports instead of out-of-state colleges (also see page 22). — **21**

Reports Designated for Out-of-State Colleges
Of the 341,233 AP Examination grades of 3-5 that were reported to colleges, candidates designated 40% of these grades to be sent to out-of-state colleges. — **22**

Participation by Exam: Public School Candidates
37,151 or 66% of the public school candidates taking the AP Biology Examination earned grades of 3, 4, or 5. — **23**

* The 1996 and 1997 program totals for these exams reflect the number of examinations taken by candidates who took either one or both exams for a single fee. The 1997 totals for candidates who took both exams are: Economics: Microeconomics and Macroeconomics (8,096); Government and Politics: Comparative and United States (5,839); Latin: Vergil and Literature (28); and Physics C: Mechanics and Physics C: Electricity and Magnetism (5,704).

** In 1994, Latin Catullus-Horace was changed to Latin Literature.

*Source: Applied Educational Research Inc. of Princeton, NJ

**This is the number of exams taken by the current year's 11th and 12th grade AP candidates (number of exams not shown) divided by the state's "11th and 12th Grade Enrollment" x 1000.

AP Resources for Administrators

Publications

Among the many AP publications available are:

- *A Guide to the Advanced Placement Program*: a comprehensive overview explaining how to start an AP program and administer the exams.
- *AP Course Descriptions*: subject-specific booklets describing, in detail, each course and its exam; each one includes sample questions.
- *A Secondary School Guide to the AP Program*: This guide is a comprehensive consideration of the AP Program. It covers topics such as: developing or expanding an AP program; gaining faculty, administration, and community support; AP grade reports, their use and interpretation; AP Scholar Awards; receiving college credit for AP; AP teacher training resources; descriptions of successful AP programs in nine schools around the country; and "Voices of Experience," a collection of ideas and tips from AP teachers and administrators.
- *College and University Guide to the AP Program*: this guide is intended to help college and university faculty and administrators understand the benefits of having a coherent, equitable AP policy. Topics included are validity of AP grades; developing and maintaining scoring standards; ensuring equivalent achievement; state legislation supporting AP; and quantitative profiles of AP students by each AP subject.
- *AP Bulletin for Students and Parents*: describes the benefits of taking AP Exams, what the exams are like, how students should prepare for them, how they are graded and what happens to the grades, and information about other key aspects of the program, such as AP Scholar Awards.
- *The College Handbook*: an annual comprehensive guide containing up-to-date information about the Advanced Placement policies at more than 3,100 two- and four-year colleges and universities.
- Free-Response Guides, available in most AP subjects, show what kinds of questions appeared on prior exams, how students responded to the questions, and the criteria by which their responses were scored.

Computer Software

College Explorer® PLUS: a computer software package that allows the user to research, review, and compare AP placement and credit policies at 2,800 colleges. Available for use on an IBM or compatible with 256K RAM.

Statistical Tables

AP Program statistical tables are produced annually. Some of the available tables include:

- Annual AP Program Participation: number of schools, candidates, examinations, and colleges that have participated in the AP Program since 1955.
- The 200 Colleges and Universities Receiving the Greatest Number of AP Grades: a list of 200 colleges, the number of candidates submitting AP grades to them, and the total number of examination grades received by each institution.
- State Summary Report of Advanced Placement Examinations: lists by state, the number of 11th and 12th grade enrollments, state count of secondary schools, and the number of AP schools, candidates, and exams for the current and previous year.

Videotape

- *AP Pathway to Success*: In this new video, students, parents, teachers, and school administrators talk about the AP Program and the benefits of participation.
- *What's In a Grade?*: explains the process of scoring AP exams, especially the free-response section; faculty consultants talk about scoring actual student responses.

Internet

For more information about AP, visit the AP section of the College Board Online website: http://www.collegeboard.org/ap/html/indx001.html. If you don't find the information you need there, you can send questions via electronic mail: apexams@ets.org for information about the AP Program and its policies and for information on ordering, administering, and returning AP Examinations; apreader@ets.org for information about the AP Reading.

For information about these or other AP publications, consult your College Board Regional Office (See list on back cover.), or visit our online Publications Store: http://cbweb2.collegeboard.org/shopping/
